1. Ivan Subasic has been extremely occupied during the recent days in Belgrade with devising a modus vivendi acceptable to Yugoslavia's "National Communism" and the Western Bloc.
2. Reportedly, Subasic already has had several meetings towards this goal with a prominent American personage (unidentified).
3. Another source reports that rumors are rife in Belgrade to the effect that Subasic shortly will be given a ministerial post, to gain the support of the Croatian peasants for the Government.
